

THE BROKER PLATFORM

2 Separate
Workflows,
1 Platform

Track and Follow
in Real-Time

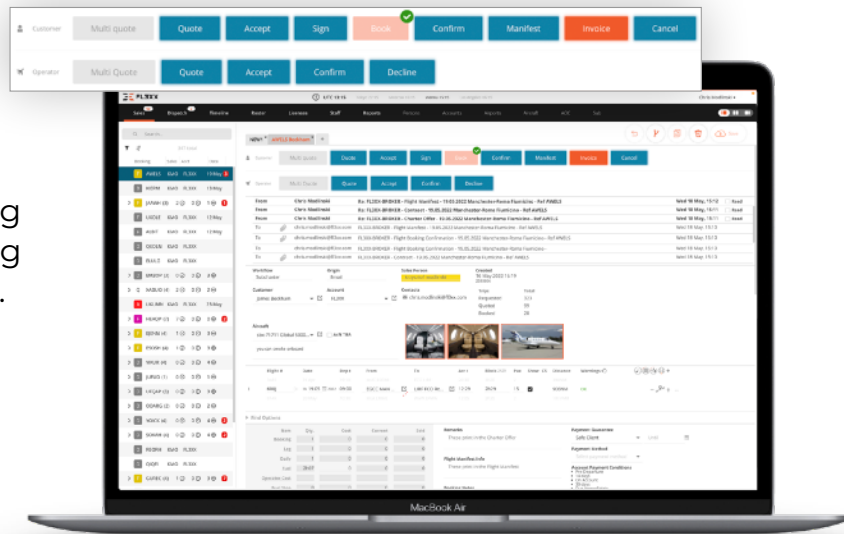

Fully Integrated
CRM and
Communications

HOW DOES IT WORK?

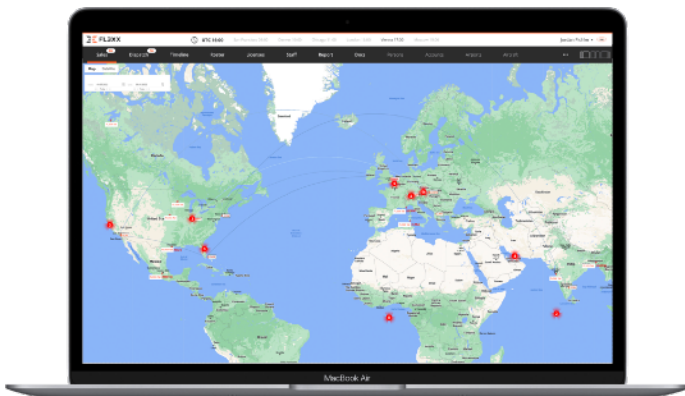

FL3XX SOURCE simplifies managing your flight operations by integrating a CRM and communication system.

You can send and receive quotes, contracts, and invoices, while also tracking flights and managing aircraft sourcing all from a single interface.

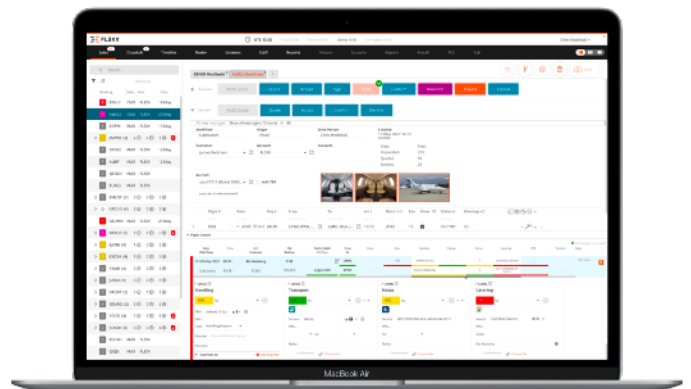

THE BENEFITS

- Improve workflow efficiency by handling customer requests, quotes, and contracts all in one place.
- Coordinate effortlessly by managing both customer interactions and aircraft sourcing on the same screen.
- Gain a comprehensive operational view by integrating third-party data into your workflow using the FL3XX API.

- Easily find aircraft or build a custom directory with the two-way Avinode integration.
- Make quicker, informed decisions with real-time tracking of flights and aircraft.
- Provide high-quality service by managing handling, transport, accommodations, and catering with your preferred providers.

\$1,000/instance
One-time Fee

\$2,388/user
Invoiced annually
