Inside FL3XX

FL3XX BRIGHT is a powerful Business Intelligence tool that integrates with your FL3XX instance to provide deep insights. It helps you track KPIs, explore trends, and identify patterns using machine learning, making data analysis easier and more intuitive.

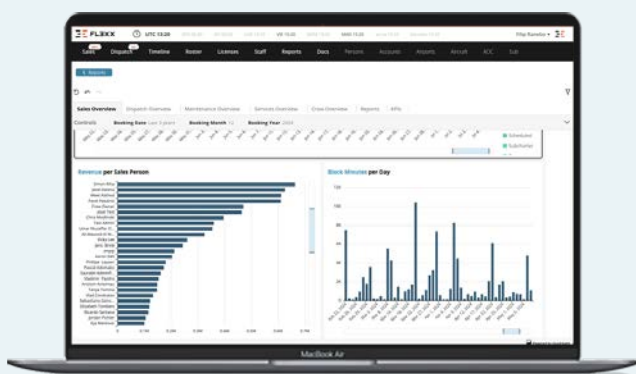

HOW DOES IT WORK?

FL3XX BRIGHT connects to your FL3XX instance and uses Amazon QuickSight for data visualization. It pulls and processes data from different operational areas, allowing you to interact with dashboards, ask plain language questions, and get visual answers.

Machine learning detects trends and outliers, while customizable, scheduled reports keep stakeholders updated with the latest insights.

THE BENEFITS

- **Enhanced Decision-Making:** Gain actionable insights for smarter decisions.
- **User-Friendly:** Easily navigate and analyze data, even without technical expertise.
- **Customizable Dashboards:** Build dashboards tailored to your specific needs.
- **Comprehensive Data Analysis:** Access various data and visual types for a clearer understanding of operations.

Get value from the moment you activate FL3XX BRIGHT!

Book a demo or contact us to try it out for a short period with no commitment!
